

# Red River Railroad Museum Newsletter

Issue 2, November 2009

Greetings to all:

We are happy to say that the Red River Railroad Museum is 'chugging along' quite nicely and we are becoming a popular tourist attraction for the greater northern Texas region. For the holidays we have several tours booked, including a scavenger hunt, and we are also looking forward to various school field trips that are booked for next spring! The museum is also anticipating "Little Katy", our mock train engine that accommodates up to 18 people, to be ready to rent out for the holidays. If she is ready in time for Christmas, then we will be entering her in local parades and other seasonal events. However, the museum needs YOU to make all of these holiday events possible! Volunteering and tax-deductible donations are needed, and any time and support you can offer is greatly appreciated by not only the museum, but by everyone who has ever had a love of trains! If you decide to financially support us, please mail all donations to: 101 E. Main Street, Denison, TX 75021. You can also donate online on our website: [www.redriverrailmuseum.org/membership.htm](http://www.redriverrailmuseum.org/membership.htm).

We appreciate your support of the Red River Railroad Museum. Come see us soon!
